

**caption:**  
The person (is) \_\_\_\_ the hair drier.

**Q1: Is it possible to find a spatial relationship for one image but not the other?**

☒ Yes. (Continue to Q2 and Q3)    ☐ No, every relation is true for both images or false for both images. (Skip Q2 and Q3)

☐ No, at least one object cannot be clearly identified. (Skip Q2 and Q3)

**Q2: Fill in the blank a spatial relation that makes it only true for one image.**

☐ above    ☐ across    ☒ across from    ☐ adjacent to    ☐ after    ☐ against    ☐ ahead of    ☐ along    ☐ alongside    ☐ among    ☐ around    ☐ at  
☐ attached to    ☐ away from    ☐ at the back of    ☐ at the left side of    ☐ at the right side of    ☐ at the side of    ☐ at the edge of    ☐ behind    ☐ below  
☐ beneath    ☐ beside    ☐ between    ☐ beyond    ☐ by    ☐ close to    ☐ connected to    ☐ consists of    ☐ contains    ☐ deep down  
☐ detached from    ☐ down    ☐ down from    ☐ enclosed by    ☐ facing    ☐ facing away from    ☐ far away from    ☐ far from    ☐ from  
☐ has as a part    ☐ in    ☐ in front of    ☐ in the middle of    ☐ inside    ☐ into    ☐ left of    ☐ near    ☐ next to    ☐ off    ☐ on    ☐ on top of  
☐ opposite to    ☐ out of    ☐ outside    ☐ over    ☐ parallel to    ☐ part of    ☐ past    ☐ perpendicular to    ☐ right of    ☐ surrounding    ☐ through  
☐ to    ☐ toward    ☒ touching    ☐ under    ☐ with    ☐ within

**Q3: The completed caption is true for which image?**

☒ True for image 1    ☐ True for image 2

Figure 15: A screenshot of the annotation interface.

**caption:**  
The person is behind the laptop.

☐ True    ☒ False

Figure 16: A screenshot of the validation interface.
